

**Patricia Adam** is your expert for the development of management systems. For more than 25 years, the economist and professor for international management holds lectures and seminars in German and English. She worked for a major German bank for ten years and since then travels the world in order to audit and assess organisations and their management systems. True to her values passion ▪ cosmopolitanism ▪ practical relevance ▪ integrity ▪ professionalism, Patricia Adam always aims at awakening passion and energy for your organisational and personal development.

### Practically good friends?!

Agile Processes and ISO 9001

### The planned chaos

An introduction for agility fans and those who want to become one

Many organisations are experimenting with agile practices and teams. Still, some questions remain unanswered. How can this be transferred into a certified QM system? When does agility make sense? Should really everyone work in an agile way? Patricia Adam researched these issues and came up with some exciting answers.

### Gone wild?!

Compulsorily agile in home office

### The intended flexibility

How to use agile methods in seminars and trainings

Do you need more information about the keynotes or would you like to request a specific date?

Don't hesitate to get in touch!

### Easy ISO

Developing organisations creatively with ISO 9001

ISO 9001 is nonsense? QM and certification are omnipresent - and so are all the prejudices: QM is only about documentation and control, it costs a lot of money and is useless anyway. Patricia Adam cannot let this stand. In her witty keynote, she also shows your team that QM can be very creative and really fun.

Do you want to manage your merger successfully and remain operational during the process? Here are tips & tricks from someone with first-hand experience.

### Nuclear fusion

Successful mergers through multi-cultural management
